Explanation:

The following changes have been made in the curriculum.

- 1) The name of the Probability Theory course in the 3rd Semester has been changed to Probability and Random Processes.
- 2) Project Management course in the 4th semester has been added to the 6th semester as a compulsory course.
- 3) Occupational Health and Safety course in the 6th semester has been added to the 7th and 8th semesters as 2 separate courses.

The following courses are offered in 30% English program during the fall semester and are offered this spring semester for the 100% English program. The students of 30% program should submit a petition to the Department's office in order to admit these courses

EEE1002	Measurements in Electrical Engineering
EEE1004	Materials in Electrical Engineering
EEE2014	Power Systems
EEE2016	Electromagnetic Waves
EEE3024	High Voltage Techniques
