LivenARCH-VI 2019: REPLACING ARCHITECTURE

Karadeniz Technical University Department of Architecture
September 25-28, 2019 Trabzon-Turkey

Congress Chair

Ahmet Melih Öksüz

Karadeniz Technical University, Head of Department of Architecture, Turkey

Organization Committee

Özlem Aydın

Asu Beşgen

Sonay Çevik

Nihan Engin

Nilgün Kuloğlu

Ayşegül Özyavuz

Reyhan Midilli Sarı

Derya Elmalı Şen

Ayça Araz Ustaömeroğlu

Nilhan Vural

Scientific Committee

Aysu Akalın, Gazi University, Turkey

Emine Nilüfer Akıncıtürk, Uludağ University, Turkey

Burak Asiliskender, Abdullah Gül University, Turkey

Sofia Alexio, Universidade de Évora, Portugal

Havva Alkan Bala, Selçuk University, Turkey

Kathryn L. Bedette, Kennesaw State University, USA

Gonca Büyükmihçici, Erciyes University, Turkey

Özge Cordan, Istanbul Technical University, Turkey

Nilay Coşgun, Gebze Technical University, Turkey

Pelin Dursun Çebi, Istanbul Technical University, Turkey

Altay Çolak, Çukurova University, Turkey

Ebru Çubukçu, Dokuz Eylül University, Turkey

Sevinç Ertürk, Kültür University, Turkey

Demet İrklı Eryıldız, Istanbul Okan University, Turkey

Ayşe Nilay Evcil, Beykent University, Turkey

Helene Frichot, KTH Royal Institute of Technology, Sweden

Catharina Gabrielsson, KTH Royal Institute of Technology, Sweden

Şebnem Hoşkara, Eastern Mediterranean University, North Cyprus

Pınar Dinç Kalaycı, Gazi University, Turkey

Sait Ali Köknar, Kadir Has University, Turkey

Manfredo Manfredini, The University of Auckland, New Zealand

Lale Özgenel, Middle East Technical University, Turkey

Kamuran Öztekin, Doğuş University, Turkey

Iakovos Potamianos, Aristotle University of Thessaloniki, Greece

Gökçeççek Savaşır, Dokuz Eylül University, Turkey

Meike Schalk, KTH Royal Institute of Technology, Sweden

Levent Şentürk, Eskişehir Osmangazi University, Turkey

Marc Aurel Schnabel, Victoria University of Wellington, New Zealand

Ayşin Sev, Mimar Sinan Fine Arts University, Turkey

Zihni Turkan, Near East University, North Cyprus

Zeynep Uludağ, Gazi University, Turkey

Sibel Ural, Bilkent University, Turkey

Ayhan Usta, Kültür University, Turkey

Asuman Türkün, Yıldız Technical University, Turkey

Semiha Yilmazer, Bilkent University, Turkey

Kestutis Zaleckis, Kaunas University of Technology, Lithuania

Theme

REPLACING ARCHITECTURE

The settlement and accommodation problems brought about by the increase in world population had always been major issues; architecture was expected to develop solutions for. The rising population and other problems our habitats had been suffering, led to immigration whereby architecture also had its share of unfortunate consequences.

Today's world is more and more being characterized by a never-ceasing movement of people due to the developments in technology, reduced primacy of labor in production processes, crises suffered in agriculture, industry and economics, not to mention a host of conditions ranging from survival issues to a search for a better life, including but not limited to wars, hunger, terror, and unemployment. Population movements towards various destinations have been accelerating in recent decades in particular, in connection with a number of reasons and motives. And that every movement whereby people leave their existing habitats and communities behind, and seek a new life often out of necessity, at a new place and in a new community, leads to a host of issues requiring solutions, for both the departure and the destination locations.

The solutions to social, cultural, and economic problems such as integration, adaptation, belonging and quality require unconventional analyses, research, and design, and are duly reflected at the architectural scale. Therefore, "Replacing Architecture" effectively paves the way for the existence and the forms of existence, not to mention the struggles to exist on part of the places, times, and spaces, with reference to all explicit and implicit aspects of the concept. "Replacing Architecture" entailing the movements from origins to new destinations, provides an actual domain of research and application based on distinct perspectives to and pursuits of solution for the concepts of human, value, culture, movement, immigration, and transitivity.

In this context, LivenARCH-VI Congress aims to shed light on the "Replacing Architecture" theme on theoretical as well as practical planes, and calls for discussions on the following matters with an architectural and interdisciplinary outlook:

- MEMORY
- BELONGING
- TRANSFORMATION
- MOBILIZATION
- PLACELESSNESS
- ACONTEXTUAL
- DESTRUCTION
- MEDIOCRITY
- EARTHLINESS

Key dates

Abstract Submission: February 22, 2019

Acceptance of Abstracts: April 19, 2019

Full Paper Submission: July 12, 2019
