Points to note when naming group uploads of Engineering Design and Graduation Project books

At first upload, one file will be uploaded on behalf of the project group. When naming the uploaded file, the abbreviated name of the project advisor and the group number must be used. This numbering must be done by the advisors, who must inform their students of their group. The following file name examples may be considered.

etugcu_01.pdf

zhtugcu_01.pdf

caksoy_01.pdf

calbayrak_01.pdf

eulutas_01.pdf

esesli_01.pdf

Depending on the number of groups, numbers can be increased as 01, 02, 03, ...

By submitting the project file via the interface, both the review of the project book and its storage in the electronic library will be ensured.

The final ONLINE submission date of the books in PDF format is the same as the Graduation Project final submission date specified in the KTU Academic Calendar.
