INSTRUCTIONS

* For final registration to the program, it is necessary to obtain a Seafarer Health Report; and for internship, it is necessary to obtain a Seaman's Book.

Seaman's Book is not given to international students by the authorities of the Republic of Turkey. International students who prefer these programs can obtain a Seaman's Book from their own country or other countries. However, since some countries do not give Seaman's Book to female students, it would be in their favour to find out from the relevant authorities of their own countries before their preferences whether they can get a Seaman's Book or not.

**Students who are placed in a program are required to bring a Health Report stating that they do not have a disease that will prevent them from doing their pharmacy education together with their registration documents during the final registration.

NOTE: The table above shows the quotas of international students determined to be placed in our university's programs in the 2024-2025 academic year and proposed to the Council of Higher Education. In case of changes in the determined quotas, the table will be updated.
