BURSIYER TUĞÇE YAZICI

Tüm dünyada ortak gündem haline gelen küresel iklim değişikliği çeşitli meslek disiplinlerinin de çözüm arayışı çabalarında ortak bir konuya dönüşmektedir. Peyzaj mimarlığı günümüzde bu konuda popülerlik kazanan “tüm gezegenin sağlığı” yaklaşımının en önemli araştırmacıları ve uygulayıcıları olarak giderek önem kazanan bir meslek olmaktadır. Biz de Mimari Tasarım ve Proje dersi kapsamında bu dönem asıl evimiz olan dünyaya karşı mesleki sorumluluklarımız bilinciyle yola çıkarak bir konutun içinde yer aldığı peyzaj ile ilişkisini kurmak amacıyla “doğa ile uyumlu tasarım” anlayışını benimsedik. 1. Sınıf 2. Yarıyıl öğrencileri ile “peyzaj” kelimesinin tanımından yola çıkarak çeşitli topoğrafyaların karakteristiklerini oluşturan görsel özellikleri temel tasar elemanları ve ilkeleriyle analiz ederek anlamaya çalıştık. Peyzaj desenlerinin temel tasar ile ilişkisini kurarken “bunları korumak için nasıl bir tasarım yapılmalı?” sorusuna bir konutun dış kabuğunun tasarımı ile yanıtlar aradık.

Her öğrenci kendi seçtiği bir yeryüzü karakterini onu oluşturan topoğrafya üzerinden anlayarak ve modelleyerek, bu oluşuma zarar vermeden onunla bütünleşen bir tasarım ürünü geliştirerek doğa ile uyumlu tasarım amacına kendi çözümünü getirmiştir. Doğaya ve çevremize karşı sorumluluklarımıza dair farkındalığı geliştirmek ve bunların bir tasarım sürecini nasıl yönlendireceğini anlatmaya çalışmak dersin temel amacını oluşturmuştur. Kütlesel hareketlerin üç boyutlu düşünülmesi ve analizini gerektiren bu zorlayıcı süreçte derse emeği geçen yardımcı arkadaşlarıma teşekkür ederim. Öğrencilerimizin meslek hayatına atıldığında tasarımın dilini ustalıkla konuşurken çevrelerinin de en güçlü koruyucuları olacağını umut ediyoruz.

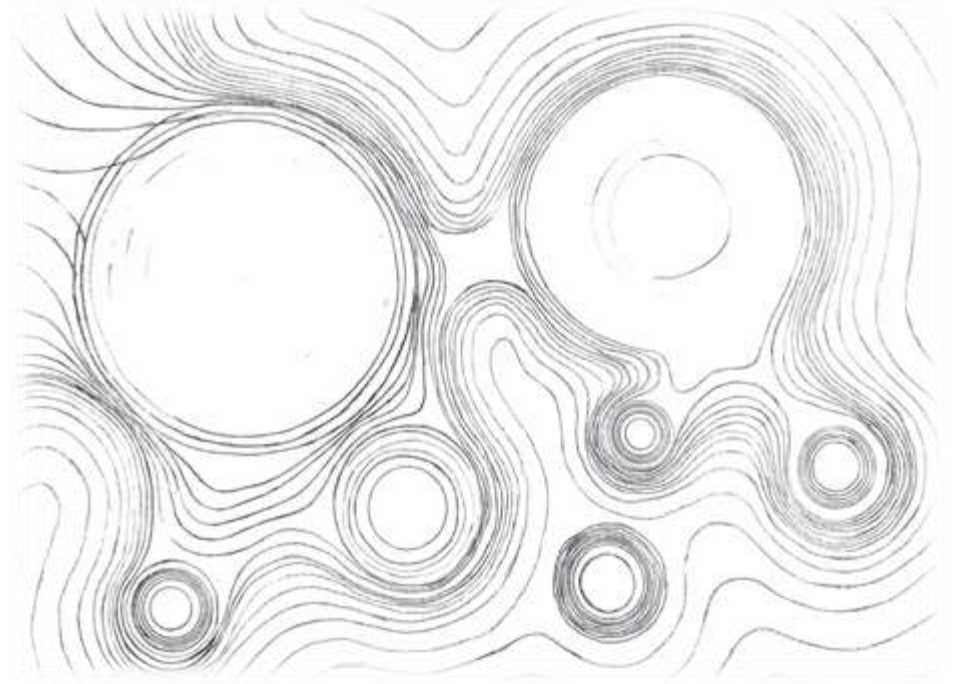

Doç. Dr. Sema MUMCU
Mimari Tasarım ve Proje Dersi
2022-Bahar Dönemi Yürütücüsü

ESİNLENİLEN YERYÜZÜ:HRUTEY, MVATN GÖLÜ, İZLANDA
