

Ortak Arama Talebi

Program: AB Yeşil Mutabakatı
09.11.2020

Dear Colleagues,

LAMS (Laboratory of Applied Molecular Spectroscopy) is a distinct Research Laboratory of the Foundation for Research and Technology-Hellas and is currently looking for partners/ consortium for the topic LC-GD-8-2-2020: Fostering regulatory science to address combined exposures to industrial chemicals and pharmaceuticals: from science to evidence-based policies.

Within the specific call, which requires the development of innovative tools and analytical methods to detect and measure complex mixtures in the various environmental compartments constitutes, they can contribute with their long-lasting experience on qualitative and quantitative accurate, rapid and selective identification of a wide range of substances (toxic dyes, pharmaceuticals, etc.) at very low concentrations via the spectroscopic method Surface Enhanced Raman Spectroscopy (SERS).

Partnerships/ consortia sought: Research/industrial parties and organizations/regulatory agencies involved in the management of regulatory approaches regarding the improved protection of health & environment and in the development of modelling/statistical approaches to identify the health impacts on human populations and the environment of toxic substances exposures.

Ortaklık teklifinin çalışma alanlarınız ile uygun olması ve ilgilenmeniz durumunda ilgi bildiri formu hazırlamanız ve bizlerle iletişime geçmeniz gerekmektedir. KTÜ Teknoloji Transferi Uygulama ve Araştırma Merkezi ilgili süreçte sizleri ortak arayışında bulunan kurum/kuruluş ile eşleştirip proje ortaklığı konusunda müzakere başlatmanıza destek olacaktır.
